**Subject:** Dimock Investigation -- Follow-up from Kick-off Meeting Yesterday

Rupert,

As a follow-up from our discussion yesterday at the Command Center, please send us a copy of the following:

- Revised Field Sampling Plan/Work Plan
- Program QAPP
- Environmental Response Team SOP No. 2007 (ERT, 1995) for Residential Well Sampling
- Decon Procedure
- Analytical Methods per Analyte and Respective Method Detection Limits

Also, just to confirm, you indicated yesterday that no surface water samples would be collected. Is that still the case?

Thanks in advance.  
John
